# پنجمین کنفرانس قارچ‌شناسی پزشکی ایران

## Poster presentations

Code	Presenter	Title
P-001	Sara Mohamadnezhad	Prevalence of the Pityriasis Versicolor in Kidney Patients of the Dialysis Center of Mazandaran.
P-002	Mina Dadashzadeh	Conventional identification of fungal species isolated from patients with otomycosis in Urmia, Iran
P-003	Negar Javanmard	Interspecies differences of <i>Candida</i> species causing recurrent vulvovaginal candidiasis in response to Fluconazole treatment
P-004	Rasoul Mohammadi	Clinical and mycological study of Vulvovaginal Candidiasis (VVC)
P-005	Rasoul Mohammadi	A study of candiduria among kidney transplant recipients
P-006	Shima Abotalebiyan	Various causative agents of otomycosis, the clinico-microbial epidemiology in Isfahan, Iran
P-007	Mahnaz khierkhah	Identification of <i>Candida</i> species isolated from the oral cavity of patients with head and neck cancers in Isfahan in 2017-2018
P-008	Mahnaz Kheirkhah	Prevalence of drug-resistant <i>Candida</i> species causing recurrent vulvovaginal candidiasis
P-009	Halala khalandi	Fungal arthritis
P-010	Golamreza Shokoohi	First case of onychomycosis due to <i>Neoscytalidium novaehollandiae</i> in Iran
P-011	Nasser Keikha	Prevalence of superficial and cutaneous fungal infections in patients referred to bu-ali clinical diagnostic laboratory in Zahedan during 2017-2018
P-012	Mahmoodreza Behravan	Evaluation of fungal air contamination and risk of nosocomial infections in educational hospitals of Birjand University of Medical Sciences in 2007
P-013	Marjan Motamedi	The incidence of onychomycosis among 1072 Patients referred to three medical mycology laboratories in Tehran, capital of Iran

# پنجمین کنفرانس قارچ شناسی پزشکی ایران

<b>P-014</b>	Nasibeh ghasemi	Onychomycosis among patients with Pemphigus diseases
<b>P-015</b>	Ali Teimoory khanary	The human oral mycobiome: Tiny things in our mouth with huge effect on our health
<b>P-016</b>	Elham Aboualigalehdari	Survey of antifungal susceptibility <i>Candida glabrata</i> isolated from genitourinary Tract
<b>P-017</b>	Masoomeh Rezanzhadi	Detecting <i>Cryptococcus neoformans</i> in CSF samples suspected to be meningitis
<b>P-018</b>	Mehrnoosh maherolnaghsh	Identification and Antifungal susceptibility testing of <i>Candida</i> species in oral lesions of patients with cancers: in vitro activity of new azole luliconazole compared to fluconazole
<b>P-019</b>	Narges Zarei	Genotyping of <i>Candida albicans</i> isolates from the Oral cavity of Iranian Diabetic patients
<b>P-020</b>	Sara Asgari	Nosocomial Fungal Infections: Epidemiology, Diagnosis, Treatment and Prevention
<b>P-021</b>	Sara Asgari	<i>Candida auris</i> : An Emerging Multidrug-Resistant Fungal Pathogen
<b>P-022</b>	Zahra Salehi	Antifungal Susceptibility Profile of Clinically Important Dermatophyte Species Isolated from Iranian
<b>P-023</b>	Mohsen Gerami Shoar	Severe Disseminated Phaeohyphomycosis in a Patient with Inherited CARD9 Deficiency
<b>P-024</b>	Iman Haghani	<i>Fusarium proliferatum</i> as a Dominant <i>Fusarium</i> species Isolated from Patients with Onychomycosis in the North of Iran
<b>P-025</b>	Iman Haghani	Molecular identification and antifungal susceptibility of clinical fungal isolates from onychomycosis (uncommon and emerging species)
<b>P-026</b>	Parvaneh Afshar	Laboratory diagnosis fungal endocarditis with negative blood culture
<b>P-027</b>	Seyed Ali Jeddi	Is there a relationship between age and gender with <i>Microsporium canis</i> infection?
<b>P-028</b>	Shirin sadat Hashemi	Central Line Associated with Candidemia in Open-Heart Surgery ICU

آدرس دبیرخانه: تهران، بلوار کشاورز، خیابان پورسینا، دانشگاه علوم پزشکی تهران، دانشکده بهداشت، بخش قارچ شناسی پزشکی

دانشگاه علوم پزشکی تهران

# پنجمین کنفرانس قارچ‌شناسی پزشکی ایران

Fesharaki		
P-029	Firoozeh Kermani	Prosthetic valve endocarditis caused by Multidrug-resistant <i>Candida albicans</i> in patient with myelodysplasia syndrome: A case report
P-030	Mohammad Reza Younespor	Bening esophageal ulcer associated with <i>Candida tropicalis</i> infection in a diabetic patient
P-031	Sadegh Nouripour-sisakht	Black <i>Aspergillus</i> as the main causative agents of otomycosis is Yasuj south west of Iran
P-032	Mahmoud Karimizadeh Esfahani	The first case of fungal keratitis due to <i>Aspergillus minisclerotigenes</i> in Iran
P-033	Maryam Bakhshi	Evaluation of acquired fungal infections from 3 hospitals in kerman
P-034	Sara Hamzehee	Molecular detection of candida spp. isolated from Oral Mucous in patients with Leukemia and Lymphoma in South-eastern Iran
P-035	Zahra Nasrollahi	Diagnosis of fungal infections in Pediatric Cancer Patients
P-036	Fatemeh Moradi	Onychomycosis caused by co-infection of <i>Aspergillus Niger</i> , <i>Penicillium</i> Spp. and <i>Alternaria</i> Spp.; A case report
P-037	Ali Mosallaiepour	Evaluation of fungal colonization of the respiratory tract of patients in the intensive care unit in Fasa Vali-Asr Hospital
P-038	Nahid Arefi	Vaginal candidiasis and species identification in pregnant women in Shahid Noorani hospital in Talesh
P-039	Mahsa Naeimi Eshkaleti	Study of clinical features and molecular identification of etiological agents in 25 cases of Mucormycosis in Iran
P-040	Mahzad Erami	Onychomycosis Prevalence in Kashan Shahid Beheshti Hospital
P-041	Mahzad Erami	Prevalence of superficial fungal infection in diabetic patient in Shahid Beheshti Hospital in Kashan
P-042	Mohsen Gerami Shoar	Annual epidemiologic survey of onychomycosis in patients attending the Mycology Laboratory of Tehran University of Medical Sciences

# پنجمین کنفرانس قارچ شناسی پزشکی ایران

<b>P-043</b>	Fereshteh Zarei	Incidence of invasive fungal infections in transplant recipients
<b>P-044</b>	Fateme Sadaat Razavi	Combination antifungal successful treatment without any neurosurgical debridement in a patient with sinocerebral Mucormycosis: a case report
<b>P-045</b>	Shirin Sadat Hashemi	Successful treatment of postoperative sternal osteomyelitis, due to <i>Candida albicans</i> , with Triazoles
<b>P-046</b>	Solmaz Basiri	Prevalence of vaginal candidiasis among urban and rural women of Ardebil, Iran
<b>P-047</b>	Vida Alizadeh	Study on the distribution of <i>Candida</i> spp. in the mucosal surfaces of healthy persons from different age groups
<b>P-048</b>	Pegah Ardi	Causative agents, underlying diseases and treatment outcomes of aspergillosis: our experience with 29 cases
<b>P-049</b>	Ayda Maleki	Candidemia due to non- <i>albicans</i> <i>Candida</i> species: incidence rates, risk factors, and antifungal susceptibility profile at tertiary care academic hospitals in Tehran
<b>P-050</b>	Arezo Charsizadeh	Species distribution and antifungal susceptibility profile of invasive <i>Candida</i> isolates from paediatric ICUs in Tehran, Iran
<b>P-051</b>	Taraneh Razavyoon	New treatments of toe nail Onychomycosis
<b>P-052</b>	Mojtaba Didehdar	Molecular characterization and antifungal susceptibility profile of dermatophytes isolated from scalp dermatophyte carriage in primary school children in Arak city, Center of Iran
<b>P-053</b>	Robab Ebrahimi	The survey of <i>Tinea Versicolor</i> prevalence in patients referring to the Farabi laboratory in Ardabil between 1395-96
<b>P-054</b>	Diman Mahdi	Occurrence and distribution of pathogenic <i>Mucorales</i> in hospital environmental soil samples from Urmia, Iran
<b>P-055</b>	Parastoo Hassani Abharian	Common fungi and major factors of the contaminations at the indoor of student dormitories
<b>P-056</b>	Javaher Chabavizadeh	The frequency of vaginal Candidiasis in the city of Kermanshah

آدرس دبیرخانه: تهران، بلوار کشاورز، خیابان پورسینا، دانشگاه علوم پزشکی تهران، دانشکده بهداشت، بخش قارچ شناسی پزشکی

<b>P-057</b>	Shima Abotalebiyan	Drug resistance and hospital sources of <i>Aspergillus</i> species causing HAI at a Medical-Educational Center in Urmia
<b>P-058</b>	Mohsen Karami	Role of Moth fly (Diptera: Psychodinae) as a mechanical vector of <i>Mucor</i> and <i>Fusarium</i> in hospitals
<b>P-059</b>	Afshin Ghodrati	Distribution of <i>Histoplasma spp.</i> and <i>Aspergillus spp.</i> in Iran: A contemplated review
<b>P-060</b>	Golamreza Shokoohi	Molecular characterization of environmental <i>Alternaria</i> species isolated from Iran
<b>P-061</b>	Mehdi Taheri Sarvtin	Study on <i>Candida</i> infection in patients with type 2 diabetes mellitus in Sari, Iran
<b>P-062</b>	Bahman Fouladi	Study of the prevalence of fungal flora in Zabol city in 2018
<b>P-063</b>	Ensieh Lotfali	Clinical characteristics and in vitro susceptibility profiling of Candidemia in febrile neutropenic patients; a brief report in Tehran, Iran
<b>P-064</b>	Keyvan Pakshir	Molecular Identification of <i>Candida</i> species isolated from oral cavity of Pemphigus vulgaris patients and evaluation of antifungal activity among the isolates
<b>P-065</b>	Bahareh Fallah	Distribution of <i>Candida</i> in the oral cavity
<b>P-066</b>	Mahdiye Rafie	Evaluation of Drug susceptibility of <i>Aspergillus</i> species isolated from ICU of Hospitals in <i>in vitro</i>
<b>P-067</b>	Mohammad Pooya	Causative pathogens of urinary tract infection and their antimicrobial susceptibility patterns in patients with mucormycosis
<b>P-068</b>	Mojtaba Nabili	Drug azole resistance of <i>Aspergillus fumigatus</i> strains isolated from compost in Iran
<b>P-069</b>	Nastaran Rezaei	Identification of <i>Penicillium</i> species isolated from food using the ITS region
<b>P-070</b>	Parsa Farzad	Identification of <i>Aspergillus</i> species from food material control center of Hamedan (Iran) by sequence of $\beta$ -tubulin gene

<b>P-071</b>	Salar Javanmard	Hospital sources of common <i>Candida</i> infections at the educational hospitals
<b>P-072</b>	Vahid oladzad abas abady	Identification and isolation <i>Cladosporium</i> fungi from Forests and Farms of Mazandaran Province
<b>P-073</b>	Yazdanfar H	Prevalence of noninfectious (allergic and irritant contact dermatitis) and infectious cutaneous lesions of construction industry workers in the Mashhad
<b>P-074</b>	Afsane Vaezi	Azole Resistance of Environmental and Clinical <i>Aspergillus terreus</i> Isolates from Iran
<b>P-075</b>	Ameneh Soleimani	Occurrence of asymptomatic candiduria in hospitalized patients with heart failure and indwelling urinary catheter in a tertiary care center
<b>P-076</b>	Sanaz Nargesi	Polyphasic approach: the final concept in classification of important <i>Aspergillus</i> species
<b>P-077</b>	Seyed Reza Aghili	<i>Candida</i> urinary tract infection in patients with renal failure undergoing hemodialysis
<b>P-078</b>	Fardin Ahmadkhani	Molecular Identification and Antifungal Susceptibility Profile of Clinical <i>Candida</i> Species Isolates
<b>P-079</b>	Maedeh maleki	Prevalence of Allergic Bronchopulmonary Aspergillosis in Iranian Cystic Fibrosis Patients by Two Different Diagnostic Criteria
<b>P-080</b>	Mahshid Vakili	Is there relationship between isolated <i>Aspergillus</i> species and severity of asthma?
<b>P-081</b>	Mahin Tavakoli	Molecular identification and In vitro antifungal susceptibility of clinical and environmental isolates of <i>Aspergillus nidulans</i> complex collected from different countries
<b>P-082</b>	Miaad Banay golrizi	Detection of azole resistance <i>Aspergillus fumigatus</i> strains from compost
<b>P-083</b>	Vida Mortezae	Prevalence of allergic bronchopulmonary aspergillosis in patients with allergic-asthma by using various diagnostic criteria
<b>P-084</b>	Salar Javanmard	Hospital sources of common <i>Candida</i> infections at the educational hospitals

<b>P-085</b>	Maryam Lavaee	High Prevalence of <i>Prototheca spp.</i> in Milk Samples from Cows Suffering from Mastitis in Mashhad city, northeast Iran
<b>P-086</b>	Maryam Lavaee	Survey on prevalence rate of fungal and algal species in dairy cows with clinical and subclinical mastitis
<b>P-087</b>	Ardeshtir Ziaee	Distribution of airborne fungi from outdoor air of different areas of Isfahan municipality
<b>P-088</b>	Sadegh Nouripour-sisakht	Molecular identification of <i>Candida</i> species isolated from Vulvovaginal candidiasis patients in Yasuj
<b>P-089</b>	Mahnaz Arian	Evaluation of fungal culture in 123 patients with Rhino-Orbito-Cerebral Mucormycosis
<b>P-090</b>	Majid Ganjbakhsh	Investigation and identification of bacterial and fungal micro flora of educational laboratories of a higher education center and its relation with hand hygiene
<b>P-091</b>	Ali Naseri	Identification of Non-dermatophyte fungi as agents of onychomycosis by mycological and molecular methods in Mashhad
<b>P-092</b>	Mohammad Hassan Minooeianhaghighi	Recurrent Vulvovaginal Candidiasis; Predisposing Factors, Causes agents and Drug Susceptibility in Gonabad City, The Northeast of Iran
<b>P-093</b>	Ahmad Jabrodini	The Investigation of Frequency and Drug Resistance Pattern of <i>Candida</i> Species Isolated from Vulvovaginal Candidiasis in Gerash City
<b>P-094</b>	Sara Hamzehee	Molecular detection of <i>Candida spp.</i> isolated from immunocompromised patients in educational hospitals of Kerman
<b>P-095</b>	Hasti Kamali Sarvestani	Evaluation of fungal air contamination in selected wards of two tertiary hospitals in Tehran, Iran
<b>P-096</b>	Mohammad Yarahmadi	Characterization and identification of candiduria due to <i>Candida</i> species in diabetic patients
<b>P-097</b>	Zahra Rafat	An overview on epidemiology, causative agents and demographic features of onychomycosis in Iran

<b>P-098</b>	Ensieh Zibafar	A one-year survey of superficial mycotic and pseudomycotic infections in patients referred to Medical Mycology Laboratory of Tehran University of Medical Sciences, Tehran, Iran
<b>P-099</b>	Omid Raiesi	<i>Candida auris</i> , a new emerging fungal monster
<b>P-100</b>	Muhammad Getso	Animal Dermatophytosis in Nigeria: Review of literature from 1980 to 2018
<b>P-101</b>	Nakisa Sohrabi Haghdoust	Antifungal activity of Ethanolic extract of Propolis and Trachyspermum ammi essential oil on Mep3 gene expression of <i>Microsporum canis</i> isolates
<b>P-102</b>	Reza Mohammadd-Salehi	<i>Saccharomyces boulardii</i> : As probiotic for control of <i>Candida albicans</i>
<b>P-103</b>	Parastoo Hassani Abharian	Molecular characterization of <i>Candida dubliniensis</i> and <i>Candida albicans</i> in the oral cavity of drug abusers using duplex polymerase chain reaction
<b>P-104</b>	Shima Abotalebeyan	Introduction of an <i>Aspergillus</i> PCR assay to the clinical mycology service in Iran
<b>P-105</b>	Ali Farzanegan	Evaluation antifungal activity of novel synthetic nanoparticle drug against <i>Candida albicans</i> standard species
<b>P-106</b>	Fatemeh Bazrafhshan	Increased <i>Aspartyl Proteinase</i> gene expression in <i>Candida albicans</i> during Recurrent Vulvovaginal Candidiasis (RVVC)
<b>P-107</b>	Maryam Roudbary	Investigation of <i>ALS3</i> and <i>HWPI</i> gene expression associated with adhesion in <i>Candida albicans</i> isolated from Iranian HIV-infected patients
<b>P-108</b>	Mona Ghazanfari	Is MBL serum concentration a reliable predictor for recurrent vulvovaginal candidiasis?
<b>P-109</b>	Bahman Fouladi	Investigation of <i>Candida albicans</i> genotypic entropy plot in patients with clinical vulvovaginitis
<b>P-110</b>	Saeid Amanloo	Efficacy of ozonated water on the inhibition of <i>Candida albicans</i> colonization and formation of a plaque on acrylic denture plates
<b>P-111</b>	Saeid Amanloo	Molecular typing of clinical isolates of <i>Candida glabrata</i> by <i>MLST</i> and determination of drug resistance profile

<b>P-112</b>	Ensieh Lotfali	Survey of expression of <i>Candida albicans</i> secreted aspartyl proteinase 9 in human vulvovaginal candidiasis
<b>P-113</b>	Danial Alipanah	A review on antifungal effects of Silver nanoparticles on control and prevention of fungal hospital-acquired infections
<b>P-114</b>	Saham Ansari	Intra-species genetic variability and in vitro antifungal susceptibility of 33 clinical isolates of <i>Arthroderma benhamiae</i> in Iran
<b>P-115</b>	Mahraz Osouli	Preparation, in vitro characterization and antifungal efficacy of Posaconazole loaded phospholipid based nanomicelles for topical ocular delivery
<b>P-116</b>	Hossein Khodadadi	Dihydrofolate reductase gene mutations in Iranian strains of <i>Pneumocystis jirovecii</i>
<b>P-117</b>	Hasti Nouraei	Discrimination of homozygous and heterozygous strains among vaginal <i>Candida albicans</i> isolates
<b>P-118</b>	Abdelnassar Mohammadi	Antifungal properties of Graphene Oxide Silver nanocomposite on fungi isolated from wheat and corn stored in Khorramabad silos
<b>P-119</b>	Alireza salami-khorashad	Evaluation of <i>glip</i> & <i>pksp</i> gene expression <i>Aspergillus fumigatus</i> after treatment with voriconazole by Real-time PCR
<b>P-120</b>	Azar Karami	A Study of the nucleotide sequence of the promoter area of the <i>CYP5A</i> gen and phospholipase B enzyme to sensivity and resistance to itraconazole in <i>Aspergillus fumigatus</i> isolated from the ICU of hospitals in Northern Iran
<b>P-121</b>	Fatemeh Nikoomanesh	Effect of farnesol on hyphal morphogenesis transformation and responsive gene <i>HWP</i> & <i>SAP6</i> of <i>Candida albicans</i>
<b>P-122</b>	Khatereh Torabi	Production carotenoids by <i>Fusarium oxysporum</i> and its application in food industry
<b>P-123</b>	Mahboobeh Mosavi	Carotenoid extracting with <i>Rhodotorula glutinis</i> and its application in food industry
<b>P-124</b>	Mandana Alipour	Comparison of the cytotoxic effects of Congo red before and after biological degradation with <i>Aspergillus tritici</i>

<b>P-125</b>	Nazila Motedayen	Antifungal efficacies of terbinafine and nano-liposomal terbinafine against <i>Microsporum canis</i> and <i>Trichophyton rubrum</i>
<b>P-126</b>	Rohangiz Farhadi Motehaver	Congo red products generated by <i>Penicillium digitatum</i> degradation are more cytotoxic than the original Congo red
<b>P-127</b>	Sabrieh Asadi	Determination of genotype <i>Candida albicans</i> isolated from oral cavity of patients with AIDS who referred to West health center of Tehran
<b>P-128</b>	Sabrieh Asadi	New formulation of Graphene oxide - fluconazole compound as promising agent against <i>Candida albicans</i>
<b>P-129</b>	Sanaz Yaalimadad	Investigation of inhibitory effect of nano-graphene oxide-conjugate with indolicidine on expression of <i>ERG</i> gene in <i>Candida albicans</i> by Real Time PCR to compare with clinical sample
<b>P-130</b>	Sanaz Yaalimadad	Evaluation of Nano-capsulated Caprylic acid effect on <i>EFG</i> gene expression in <i>Candida albicans</i> in vitro study
<b>P-131</b>	Zahra Jahanshiri	The study of clinical isolates of <i>Candida albicans</i> : biofilm formation and <i>ZAP</i> gene expression
<b>P-132</b>	Zahra Salehi	First clinical isolation of a Terbinafine-resistant <i>Trichophyton tonsurans</i> harboring a Leu393Phe mutation in Tehran
<b>P-133</b>	Zeinab Sadeghi Ardestani	Adhesion of <i>Candida</i> species isolated from the oral cavity to acrylic discs with different silver nanoparticles in the presence of chlorhexidine mouthwash
<b>P-134</b>	Amirhossein Davari	Nanoemulsion loaded with <i>Thymus vulgaris</i> : A promising agent against fluconazole-resistant <i>Candida</i> isolates
<b>P-135</b>	Zainab Bandlizadeh	Genotyping and antifungal susceptibility profile of clinical <i>Cryptococcus neoformans</i> species complex
<b>P-136</b>	Tanaz Bahadori	Identification of common pathogenic and potentially pathogenic <i>Exophiala</i> species by using high-resolution melting analysis
<b>P-137</b>	Foozieh Hassan Moghadam	Screening of Amino acid Substitutions in Fks1p of Micafungin resistant- <i>Candida parapsilosis</i> sensu stricto

<b>P-138</b>	Mojtaba Taghizadeh Armaki	Identification of clinical and environmental isolates of <i>Aspergillus flavus</i> by matrix-assisted laser desorption ionization–time of flight mass spectrometry (MALDI-TOF MS) method
<b>P-139</b>	Maryam Moazeni	Glabridin triggers over-expression of Apoptosis Inducing Factor (AIF) gene in <i>Candida albicans</i>
<b>P-140</b>	Maryam Esfidani	Determination of changes in the expression of miR-212 and EGFR genes in clinical samples from areas infected with <i>Trichophyton rubrum</i> compared with non-infected areas
<b>P-141</b>	Hoda Abolhasani	Antifungal Activity Evaluation of New Methyl and Methoxy Acetophenonic Isoxazolin Compounds
<b>P-142</b>	Nasrin Parsameher	Evaluation of biogenic selenium nanoparticles effects on ERG11 and CDR1 genes expression in fluconazole resistant <i>Candida albicans</i> strains
<b>P-143</b>	Asadi Mehrdad	Evaluation of antifungal effects of nanoliposomal fluconazole against Fluconazole susceptible and resistant <i>Candida</i> species isolated from patients in vitro and comparison with common fluconazole.
<b>P-144</b>	Abbas Norouzian Baghania	Concentration and type of bioaerosols before and after conventional disinfection and sterilization procedures inside hospital operating rooms
<b>P-145</b>	Sanaz Aghaei-Gharehbolagh	Identification of <i>Aspergilli</i> isolated from outdoor air using PCR-RFLP
<b>P-146</b>	Sanaz Aghaei-Gharehbolagh	Structural study of the Annexin evolution in Fungi
<b>P-147</b>	Zahra Fasihizadeh	Differentiation of the most common causes of human dermatophytosis ( <i>Trichophyton rubrum</i> and <i>Trichophyton interdigital</i> ) by Duplex PCR
<b>P-148</b>	Heidar Bakhshi	Arlequin: An integrated software package for population genetics data analysis
<b>P-149</b>	Bahareh Bashardoust	Antifungal activity of silver nano-particles and evaluation of <i>Aspf1</i> gene expression as a major allergen of <i>Aspergillus fumigatus</i>
<b>P-150</b>	Samaneh Chaharmiri Dokhaharani	Evolution effect of antibiofilm activity of Aacetonic extract from <i>Mazouj</i> gall against <i>Candida albicans</i>

<b>P-151</b>	Samaneh Chaharmiri Dokhaharani	Evaluation of antibacterial activity of Methanolic extract of the Polypore fungus fomes fomentarius (Polyporaceae) against <i>Staphylococcus aureus</i>
<b>P-152</b>	Zahra Amiri	Evaluation of on anti - <i>Candida</i> effect of essential oil of Rose and compound mouthwash (Rose essential oil, grape vinegar) on <i>Candida</i> strains ( <i>albicans</i> and <i>non-albicans</i> )
<b>P-153</b>	Elaheh Mahmoudi	Antifungal activity of Iranian desert Truffle extract against <i>Malassezia</i> species obtained of Dandruff samples
<b>P-154</b>	Robab Bahmyari	Natural occurrence of Aflatoxin and Ocheratoxin A contamination in commercial and unpacked spices in Shiraz
<b>P-155</b>	Sanam Nami	RNA interference-based silencing of the multidrug resistance protein 1 ( <i>MDR1</i> ) gene in Voriconazole- resistant <i>Aspergillus flavus</i> isolates
<b>P-156</b>	Mehdi Taheri Sarvtin	Somatic protein profile of six various yeasts isolated from patients with psoriasis
<b>P-157</b>	Nasser Keikha	Comparison of the inhibitory effects of Ethanolic and Aqueous extract of Vitexagnus-castus with Fluconazole against <i>Candida albicans</i>
<b>P-158</b>	Ensieh Lotfali	Antifungal effects of two endemic aqueous extracts on oral yeasts in diabetic patients
<b>P-159</b>	Zahra Kherad	Determination of antifungal and antibiofilm activities of Vitamin D3 against <i>Candida</i> species and expression of genes related to morphogenesis and pathogenesis
<b>P-160</b>	Kamiar Zomorodian	The possible effect of Vitamin D3 on <i>Candida</i> growth and pathogenicity
<b>P-161</b>	Kamiar Zomorodian	Determination of chemical composition and antifungal activities of aromatic water of Zataria multiflora Boiss
<b>P-162</b>	Mina Bakhtyari	Antifungal activities of the essential oils from Iranian medicinal plants against common causes of vaginal candidiasis
<b>P-163</b>	Azar Sabokbar	The evaluation of the methanol extract of azadiractin leaves on fungi growth and aflatoxin production by aflatoxin producing strain

<b>P-164</b>	Azar Sabokbar	Investigation alcoholic and aqueous extract feature of <i>Artemisia sieberi</i> plant with fluconazole drug on the <i>Candida</i> strains
<b>P-165</b>	Elahe sassani	Pseudohyphae formation in <i>Candida glabrata</i> due to exposure to CO <sub>2</sub>
<b>P-166</b>	Elham Rezaei	Investigation of Antifungal activity of <i>Teucrium polium</i> L. against <i>Candida albicans</i>
<b>P-167</b>	Fatemeh Nikoomanesh	Effect of Morgana extract on <i>Candida albicans</i> and <i>Trichomonas vaginalis</i> growth in vitro
<b>P-168</b>	Hashem Ahmadi	In vitro Synergistic Interaction of Clotrimazole/Amphotericin B/Terbinafine on Fluconazole-Resistant <i>Candida</i> Species
<b>P-169</b>	Maryam Azish	Isolation and molecular identification of soil antifungal bacteria against <i>Aspergillus fumigatus</i>
<b>P-170</b>	Mohammadali Zia	Inhibitory effect of garlic extracts on growth of <i>Candida albicans</i> and <i>Geotrichum candidum</i>
<b>P-171</b>	Morvarid Karamkhani	Workers exposure to Aflatoxin B in urban wet waste sorting centers
<b>P-172</b>	Nasim Ghayour	Activity of ethanol extract of <i>Rumex alveolatus</i> on <i>Candida glabrata</i>
<b>P-173</b>	Neda Kiasat	<i>In vitro</i> antifungal susceptibility testing of six azole agents against <i>Candida glabrata</i>
<b>P-174</b>	Parya Roghani	Anti-dermatophyte effect of <i>Olea europaea</i> leaf extract on <i>Trichophyton mentagrophytes</i> and <i>Microsporum gypseum</i>
<b>P-175</b>	Saeedeh Rahsepar	Evaluation of antifungal activity of Sumac ( <i>Rhus coriaria</i> ) Extract and its effect on expression of Secreted Aspartyl Protease 9 in <i>Candida albicans</i>
<b>P-176</b>	Sahar ghaznfari	Effect of CO <sub>2</sub> concentration on drug sensitivity pattern of clinical isolates
<b>P-177</b>	Sanaz Yaalimadad	Antifungal susceptibility of oral <i>Candida albicans</i> isolated from diabetic individuals
<b>P-178</b>	Shadi Alimehr	In vitro antifungal effect of Aureobasidin A against <i>Candida albicans</i> growth
<b>P-179</b>	Shiva Mirfatah	Antidermatophyte effect of copper nanoparticle on <i>Trichophyton rubrum</i>

(PTCC 543)

<b>P-180</b>	Siavash Liravizadeh	Emergence of Azole Resistance in <i>Aspergillus fumigatus</i> : A Global Problem
